# STILL PLAYS ACCARAT

Duke of Richmond Would Not Permit Gambling at His Country Seat, and Prince of Wales Went Elsewhere.

## FUTURE KING IS SCORED.

With the exception of ex-King Milan of Serbia, there is no royal personage in whose existence the card-table has played so important a role as in that of the Prince of Wales.

It is perhaps unfair to establish a comparison between the disreputable ex-hereditary prince and the British hereditary prince. The latter plays a straight game, and pays his debts of honor with the time, while Milan is a wretched card player.

But there is a certain analogy. For, while the former monarch of Serbia has sacrificed throne, wife, fortune, consideration and honor, the latter is also responsible for every conceivable calamity which has befallen him.

It is difficult to understand when he derives this falling which he alone of the queen's children possesses. His father, the late Prince of Wales, never touched a card. The only thing which he has brought about the ruin and disgrace of many of his most intimate friends.

Public attention has been again drawn to the card-playing propensities of the prince by his quarrel with the Duke of Devonshire, one of the most trusted friends and advisers of his mother, the queen. Cards have kept the future King of England from his duties, and the Sussex country seat of the duke.

Now people who remember when the prince of Wales was a young man, and as the guest of the Duke of Devonshire, at the latter's country seat, will be surprised to find that the prince has been so long at cards.

It is difficult for people of that generation to realize the position of the prince, who is a descendant of Charles II, and whose blood is in the veins of the Duke of Devonshire.

On the third day of the stay, the duke, who had been in the city for some time, was seen at the card-table.

His astonishment and wrath may be imagined when he found the male portion of the house party and some of the ladies seated around a table in the library playing at cards.

The old duke's indignation for once got the better of his courtesy, and he rated his future king in the presence of the other guests with having broken his word.

The prince presented a sorer spectacle than ever before. He was seen to leave the house, and was followed by the ladies seated around a table in the library.

So the prince remained to the end of the race week, although it must have been as awkward for him as for the duke.

The following year the prince declined to accept the duke's invitation to Goodwood, and attempted to do the races from Portsmouth, living aboard his yacht, the Osborne, and traveling to and from each day by special train.

Some of the comments which he made to the reason which led him to refuse the duke's hospitality came to the ears of the old peer, and he resented them, besides taking the ground that the duke's hospitality was his private property, it was a gross affront on the part of the prince to enter the house of an untitled person in the neighborhood, with whom he himself not even on the visiting card.

The duke made no attempt to conceal his displeasure, and while offering splendid hospitality to the duke and duchess of York who were in the neighborhood, he practically ignored his future king, who was in the neighborhood of the duke's country seat.

It is in keeping with her attitude toward her eldest son, whose card playing she is the first to deplore. No stronger evidence for her sentiments can be given than her refusal to allow the prince to make use of Windsor castle during the Ascot races.

He is obliged to do this because his mother will not permit games of hazard and under no circumstances will she allow him the use of Windsor castle.

# WORKERS ARE SHORT

Demand for Labor Never So Great in Lake Superior Copper Region.

## PRODUCT CUT DOWN

At Several Leading Mines Owing to the Scarcity of Workmen.

Houghton, Mich., Aug. 12.—(Special to The Herald.)—The situation in the Lake Superior copper district seems a little paradoxical. With an insatiable demand for copper at the highest prices known in the history of the world, the output of the mines is being cut down.

The condition of the local copper industry is like that of the rapidly growing city of Detroit. The demand for labor is so great that the mines are unable to get enough men to work.

## BEST RECORD.

Exports of American Manufactures Last Year Greater Than Ever Before.

Washington, Aug. 12.—(Special to The Herald.)—American manufacturers made their best export record in the fiscal year just ended. Not only were their exports larger than in any preceding year, but for the first time in the history of the foreign commerce they exceeded the value of the imports.

# HUDSON BAY FUR HUNTERS

Life of the Trappers in the Far North in Canada--Cannibalism Among White Men and Indians.

## AT LONELY OUTPOSTS

The virtual monopoly of the Canadian fur trade maintained by the Hudson Bay company and the adventurous life and experiences of many of its employees in the far north of the American continent are as full of romantic interest today as when R. M. Ballantyne and the present Lord Strathcona and Mount Royal entered the service of the company as clerks in what is still the great lonely land of Eskimos and Indian trappers.

# DULUTH'S SOCIETY

The marriage of Miss Mary Peyton, daughter of Mr. and Mrs. Hamilton M. Peyton, of 1229 East Superior street, and Russell Baxter, of West Superior, which took place on Monday evening at the home of the bride's parents, was the event of most interest in society this week. The wedding reception was one of the largest the city has ever seen.

The wedding was very quiet and the ceremony was witnessed by only the relatives and a very few friends of the family. It took place at 5:30 o'clock in the drawing room of the residence, and was performed by Rev. A. W. Ryan of St. Paul's Episcopal church. The bride, Miss Mary Peyton, was dressed in white with real lace. The bridegroom, Russell Baxter, was dressed in a tuxedo. The wedding march, played by Miss Genevieve Adams, was the first of the wedding party. The bride and groom were then seated at the head of the table. The annual picnic of the Ancient Order of Hibernians, which was to have been held last Tuesday at Lester park, was postponed on account of inclement weather. The Hibernians say that they will make up for the disappointment and by them that day they will forgive him for his past offense. A good time is guaranteed to all who will attend.

Mrs. Loman's last musical lecture, given in the room of the Twenty-first Century club on Wednesday evening, was a splendid success. The entire series has been a great interest and the triumph of this last lecture will only serve to make Mrs. Loman's departure from Duluth a regretted loss. The lecture was assisted by Mrs. Emily Ellis Woodward, Miss Shannon, Miss Kay, Miss Pfeiffer, Mrs. Stocker, D. G. Hill, F. R. Woodward and James C. Ray.

A pleasant picnic party was given Friday afternoon and evening at Lester park in honor of several visiting ladies. Mrs. Dr. Fisher, of Toronto, Mich.; Mrs. H. Spenser, of Boston; Miss Florence Lakin, of Minneapolis; Miss Nettie Cunningham and Miss Abbie Spaulding, of St. Paul. These present, the visiting friends were: Mrs. Messrs. and Mesdames: T. M. Pugh, E. B. Fox, E. B. Richards, H. B. Imman, Mrs. Ford, Mrs. J. H. Reynolds, John Pugh.

Mrs. William H. Satter gave a reception Monday afternoon at her home at Hunter's park in honor of Mrs. Ives, of New Haven, Conn., and Mrs. Macnaught, of Monticello, N. J. The parlors were decorated with golden rod and nasturtiums. The dining room table was set with white, pink and blue. ## TO MAKE MOTORS.

Pittsburg, Aug. 14.—A plant for the manufacture of the Lancaster oil motor to cost \$50,000 and to employ about 50 skilled mechanics, is to be built in Pittsburg. The company proposes to manufacture the use of large freight trucks and street cars, though it has recently secured an option on all the oil motor patents in the United States, Canada and Mexico that are owned by the inventor, Frederick William Lancaster, of Birmingham, Eng., who is a large stockholder in the new concern.

## COMFORTING NEWS.

Washington, Aug. 14.—The navy department has been greatly relieved by the patch from Capt. Longueville, who commands the cruiser New Orleans, now at San Domingo City, referring to his vessel and the Machias. The dispatch states that the cutter is in San Domingo, at least at that point which can be reached by the warship. The Machias has been

patrolling the shore for some distance. The two vessels will proceed to St. Thomas to coal.

## DEWEY IS ILL.

## SHOOTING OF LABRI

Secretary Root Favors Massing of Large Army in the Philippines.

MILES MAY BE SENT

Vanderlip After the Lazy Treasury Employees—Gossip of the Capital.

From The Herald Washington Bureau.

Washington, Aug. 14.—(Special to The Herald.)—It is generally known among the officers in the war department that the return of the president from his outing will be promptly followed by preparations for a "vigorous campaign" in the Philippines.

Secretary Root has upon several occasions expressed himself as favoring the massing of an army in Manila sufficient to crush Aguinaldo and his followers. This sentiment is believed that more troops will be required than are now in the service, notwithstanding the fact that the ten regiments recently called for are practically filled.

The impression seems to be very general in the war department circles that at least 50,000 more volunteers will be asked and that five additional regiments will be organized. This can be done under the army reorganization act, and after consultation with the leading officers of the army, to have a body of men available sufficient in number to accomplish the work laid out in the last possible time.

Notwithstanding the repeated assurances that have been given to the press the effect that the president is entirely satisfied with the course of Gen. Elwell Otis. It is known that Secretary Root could not do better work than that gentleman has accomplished during the Philippine campaign.

His early conference with the commanding general of the army and his subsequent contact with the president lead to the belief that his views will be adopted by the president, and that the army will be shortly be superseded. Miles' ability as an Indian fighter has been so well demonstrated in the last few days as to rally looked upon by the American people as the ideal soldier for such work as has been laid out on the other side of the earth. Miles is a well known, and is anxious to close the campaign, and to know him best are confident that with a force sufficient behind him to be able to bring the insurgent Filipinos to terms within three months of the date that he sets foot on the island of Luzon.

It is therefore to be expected that news of the utmost importance will be forthcoming from the White House or the war department within a very few hours after the return of the president.

Altogether the return of the president has taken pains to inform the chief magazine that while his constituents and neighbors are as a rule, highly in accord with the administration's policy, there is, at the same time, a feeling of distrust of the long-drawn-out contest across the Pacific. These hints and suggestions of public disapproval of Otis' course will undoubtedly be weight with the executive, and if Mr. Merritt is not certain that Gen. Merritt will be, although Miles is the more vigorous man of the two, and he sides has had more experience in dealing with savage or semi-savage peoples.

"I see that the newspapers have been giving a great deal of attention lately to the discovery of some Austrian soldiers that the white men of Europe were at one time cannibals," said an attaché of the American embassy in London. "I do not think there is much doubt about the truth of that assertion, and it will some day be proved that nearly all of the Indians of this continent were eaters of human flesh not very far back. In fact there is in the archives of some of the government departments today documents which prove that the Indians consumed the bodies of their enemies whom they killed in the Canadian wars of the last century to abandon them entirely and to have nothing further to do with them during the war between England and the Indians. Unless they should refrain from this practice, but we need not go back to the Canadian wars of the last century to find cannibals on the American continent. There was in Washington a few months ago a small band of Indians who practiced cannibalism up to a period as recent as our late civil war. These Indians are now settled in Oklahoma and are known as the Tonkawas. At one time they were a powerful tribe, but because of their practices they incurred the animosity of all the other tribes in the Middle West, and during the civil war, when the Union forces were withdrawn from the frontier towards the Missouri, the other Indians combined and attacked them and almost annihilated the Tonkawas. I believe that the tribe does not now number more than twenty or twenty-five men today. They are big, powerful fellows, and the delegation which was here did not contain a man under six feet in height. That the feeling toward them by the redmen of the West is still the bitterest character was demonstrated on the fact that while here party of the Tonkawas visited this office, and during their visit a small party of Poncas came in. The latter, seeing who their fellow-Indians were, uttered grunts of disgust and left without having anything to say to them and without showing any other signs of recognition. I think the ethnological bureau will some day publish a volume or pamphlet giving the result of researches made to demonstrate beyond a shadow of doubt that nearly every one of the Indian tribes which inhabited the territory between the Gulf of Mexico and the Rocky mountains practiced cannibalism."

Assistant Secretary Vanderlip has

RENNES, Monday, Aug. 14.—Two men this morning vanished Maitre Labri, counsel for Dreyfus, and one shot was fired, hitting Labri in the back. M. Labri fell in the roadway. He is still alive.

Maitre Labri left his house alone for the court at about 6 o'clock this morning. His residence is situated in the suburbs of the town, about a quarter of an hour's walk from the Lycee, and the route is along a solitary road beside the River Vilaine. He had reached a point half way on his journey when two men who had evidently been lying in wait for him, rushed out of a narrow lane, and one of them fired a single shot from a revolver.

The murderer has been issued a couple of yards behind the victim, and the bullet struck Maitre Labri in the back. The murderer immediately fell through the lane from which they emerged, and lay on his back.

At 2 o'clock this afternoon M. Labri was suffering great agony, and the doctors who had left the house, were hurriedly summoned to attend the patient.

Col. Jouanet called after the close of the session of the court and was allowed to see M. Labri. He expressed great regret at the occurrence.

Gen. Mercier, however, but the doctors declared that M. Labri could not bear such an interview in his present state, and Gen. Mercier was obliged to go away without seeing the wounded man.

RENNES, Aug. 14, 8:30 a. m.—The following bulletins have been issued: "Maitre Labri was shot from behind the back, penetrating the posterior portion of the thorax, and exiting at the height of the fifth or sixth dorsal vertebra. The heavy flow of blood poured from the wound, and the victim, who was lying on his back, was unable to move. The undersigned, who is a doctor, immediately attended to the injuries, and he is now lying in the hospital, where he is being treated by the undersigned. The wound is very deep, and the bullet is lodged in the muscles enveloping the vertebral column. They must, however, maintain full rest, and the patient must be kept in a horizontal position. The undersigned is signed by four doctors, Renard, Leclerc, Bresson and Vialle, and is dated at 6:20 o'clock this morning."

RENNES, Aug. 14.—The Dreyfus court-martial received today for Capt. Alfred Dreyfus, the former president of the court, who was shot from behind the back, penetrating the posterior portion of the thorax, and exiting at the height of the fifth or sixth dorsal vertebra. # ENDION FIRE HALL

The Council Takes Steps Toward Reopening It on October 1.

## TALKS TOLL FERRY

Ald. Carey Presents a New Scheme But No Action Is Taken.

The council last evening took steps toward reopening the Endion fire hall, at Fourteenth avenue east and First street, on Oct. 1, passing a resolution directing the purchase of two teams of horses and two sets of harnesses by that date. A check of \$100 was ordered to be paid to the city treasurer for the purpose.

Alderman Carey proposed another scheme for a toll ferry at the canal, introducing a substitute for the resolution introduced by him last week. A resolution providing the street car companies be used to transport passengers at a rate of one cent each to be paid to the city. The resolution provided that the companies do not agree to this their passengers are to be charged a full cent fare, to be made for by the street car companies. Alderman Carey moved the immediate adoption of the resolution. The council passed over an extended debate. He argued that the canal is not a public highway, and that the city has no right to interfere with the private property of the canal. He argued that the city has no right to interfere with the private property of the canal.

## WRITES FROM SOUTH AMERICA.

William Harbour, of Ironton, Now in the Navy, Heard From.

Alderman Ed Swenson of Spirit Lake has received a letter from William Harbour, who was formerly a resident of Ironton, but is now in the United States Navy, having enlisted at Duluth some time more than a year ago. He is on the Wilmington, and writes from Santos, Brazil. His movements will be of interest to many friends who have known him in Ironton and Duluth. He says: "During the brief stay in the Gloucester, and last November I sent this ship as master at arms. I am glad to be able to say that the vessel is now in the navy department, a permanent appointment, which is rather unusual during a first enlistment. It makes me a master at arms as long as I am in the navy."

# THE SHOW HIS WEEK

Annual Exhibition of Dolls and Flowers at the Armory.

## TO LEAD ALL OTHERS

Nothing Like It Ever Seen Here--Decorating Is Under Way.

Next Friday and Saturday the flower and doll show will be given at the Armory, and the finest exhibition that Duluth has ever had is promised. This is guaranteeing a great deal for the shows in the past two years were beyond all anticipations. When last year's show was given the remark was frequently made that the standard was set so high that it would be almost impossible to keep it up. Astonishing as it may seem, the people in charge decide that this year's show will eclipse the last one.

# "NATURE'S THERMOMETER—THE BACK."

It tells the health-story well—Heed its warning! It never tells an untruth—a bit goes wrong with the kidneys and the back immediately tells the story—The degree of kidney sickness is sure to be told by the degree of backache.

# KID-NE-IDS

The modern, scientific, practical, up-to-date medicine that banishes kidney backache, kidney ailments, sleeplessness and urinary disturbances in either adults or children.

The first dose of Kid-Ne-Ids works wonders—a week's trial will oftentimes cure mild cases—take a box or two and your kidney trouble will disappear.

Disordered kidneys are indicated by pains in the back, distress or fullness after eating, scanty or scalding urine, weakness and chills, pains in the joints, nervousness, sleeplessness, loss of vitality, swelling in limbs or body, or both, and sediment in the urine.

Kid-Ne-Ids are in yellow tablet form—put up in boxes—sell for 50c a box at all drug stores—your druggist will tell you of cures they effected here at home—he will vouch for the truth of our every assertion.

Morrow's Liverlax cures constipation, biliousness, costiveness—they sell for 25c a box—at all drug stores.

# THE DAKOTAS.

Estimated That 300,000 Acres of Wheat Was Destroyed by Hail.

NORTH DAKOTA.—Grand Prayers.—The prayers which have been operating in the northern part of the state have returned to state and estimate the hail loss in the northern part of the state at 1,000 acres. Seven districts left the city for the southern part of the state to adjust the losses sustained by the late storm.

Argo.—From Carrington comes a report of attempted assassination. A gentleman here to purchase a hotel, Captain people in the town concluded he was a blind pig spender and some of them went to take a few drives. He was followed by a terrible blow, which made a cut four inches long in his head, when he recovered consciousness, he was advised to slip out of town, as his life was in danger. He concluded to remain in the matter. A number of sensational articles are anticipated.

City Treasurer Mitchell has had some arguments with different members of the city council over what he considered the useless extravagance in certain directions. He has been particularly criticised certain members of the council, among them Assessor Wade, and Michael met in front of the city hall and a few words led to an effort at an impromptu scene, which was prevented by friends of the two men.

A case county took was out for the reform school Saturday by Judge Fulton, who who is a reform school, is as fully developed as a grown man. His mother alleged that he was an idiotic child, but he has been in the reform school eight years.

At a rearing center, Fargo is interested in it. Last month thirty-two recruits were received here and during the month the first eleven days of this month, in addition to that, thirty-four recruits were received. The total number of recruits in the reform school is now thirty-four.

Manan.—Harvest is still in progress all over the country. The wheat yield is as good as anybody expected, but reports come in of considerable snail, which will bring down the value considerably.

Since the settlement of the Northern Pacific ship question, real estate has been exceedingly active, many pieces of property changing hands.

Oliver.—The Merchants' State bank is the name of a new banking institution at Freeman, Hutchinson county. John Schumaker is president.

Bowling.—The agent of a Minneapolis company has, since April 1, last, purchased 32,000 pounds of butter and 320,000 eggs at that point, paying therefor \$67,648 in cash.

Whites.—Some enterprising individual at this point is manufacturing counterfeit dollars, many of which have been passed on business men here.

Burley.—The Alderman fruit farm, in Turner county, contains about 200 acres from which was marketed last year nearly 100,000 bushels of apples. The shipment of apples this season for the reason that a large part of the trees are injured by severe winter weather. On this farm were grown and marketed this season 300,000 bushels of strawberries.

Preparations for the Minnesota state fair, at Hamline, Sept. 4 to Sept. 9, indicate that it is safe to promise a really great exposition of Northwestern live stock, agricultural and manufacturing interests. As the cities have agreed to leave the task of entertaining visitors to the fair, the managers have determined to carry out a program that will be worthy of the week set apart for the great annual agricultural festival, and have arranged for a brilliant evening program as well as for day events.

# Banda Rossa to Come Again.

The Banda Rossa, the Italian band which appeared at the Lyceum last winter and proved to be one of the very finest musical organizations that had ever visited Duluth, will again come to Duluth about Sept. 10, and will give two concerts. The band has been at Duluth for some time, and has been a tremendous success. Since it was first here, the organization has been greatly strengthened, and its success has been almost phenomenal. If the band comes here again, an arrangement will probably be made to have the people vote the numbers which will make up the program.

# THE WANT MORE MEN

Farmers in the West Cannot Get Enough For Their Harvesting.

## OFFER GOOD WAGES

Men Can Do Better Here and Do Not Want to Leave.

The Dakota harvest fields is the star attraction of the labor fair boards this week, while in the center of the stage, Duluth is shipping more men westward than at any time in the past, but farmers are flooding the agencies with telegrams and other signals of distress.

Out in Dakota this week the farmers are offering \$4 a day and board for men to do the harvesting. The agencies are getting \$4 to \$4.50 a man a day and board. The agencies are getting \$4 to \$4.50 a man a day and board. The agencies are getting \$4 to \$4.50 a man a day and board.

Advances have been received from Dakota to contract for employment for the month and to offer steady jobs to last ten or twelve weeks or even three months, but even these inducements are not proving much of an incentive for men to come west for the harvest. The harvest is now fully under way, but the latter part of September. After this will come the threshing and storing of wheat. This will probably last, in many instances, till the first of the year, and the men who have been in the field for several years past are not going to leave after a few weeks' work.

## HAD A LIVELY ROW. William Tait Fined For Assault—More Arrests in Sight.

William Tait was fined in police court yesterday afternoon for assaulting Lars Johnson, which he paid, and there by hangs up a long tale. The trouble between the two men began when Johnson had rented quarters in the building owned by the Hendrickson estate, which is owned by the Hendrickson estate, which is owned by the Hendrickson estate.

Mrs. Hendrickson was recently arrested under the charge of trespassing on the property.

## Boys Are Discharged.

Harry Ryland and Fred Saultie, the boys who were arrested for stealing from the store of E. J. Sture, were discharged yesterday afternoon, on motion of Assistant City Attorney George W. C. Farrington, who had been retained by the store.

## A Beautiful Ceremony.

The unveiling of the monument to the memory of Fred Kous, which took place last Sunday at Forest Hill cemetery, was conducted with appropriate ceremonies by the Duluth chapter of the Woodmen of the World, and was witnessed by a large gathering.

## THE CROP REPORTS.

North Dakota Weather Bureau Estimates Loss By Mail at Two Millions. The report of the weather bureau on the crop conditions in North Dakota for the week ending Aug. 14 is as follows: The first week has been generally cool and dry in the central and western portion of the state, and very wet in the eastern and northeastern portion.

Wheat cutting is nearly finished in the southern portion of the state, and in the central, and just beginning in the northern part of the state. Late season crops have been a total loss, while in Eddy, Grand, and other counties considerable damage was done by the storms which will probably reach nearly 2,000,000 bushels of wheat.

The report for Minnesota for the same period was as follows: The crops were high on the 14th, especially in the south, where readings of from 95 to 100 degrees were reported. After the 14th, a frost set in, and the crops were much lower.

Another complaint of the farmer this year is that the men he has depended on for years past are not going to leave after a few weeks' work. These men are scarce this year and they are valuable to the farmer, who invariably gives them a good salary. These men are scarce this year and they are valuable to the farmer, who invariably gives them a good salary.

## THERE'S MONEY IN IT

If So Successful at Mackinac Island Why Not at Duluth?

The crowded condition of the hotels during the past three or four weeks has given new life to the talk of a summer hotel. Nearly every time the North West and North Land have come in this season the hotels have been packed as full as they could be.

It is a fact that the hotels have been packed as full as they could be. It is a fact that the hotels have been packed as full as they could be. It is a fact that the hotels have been packed as full as they could be.

Ex-Speaker Reed May Be Induced to Head the Ticket.

New York, Aug. 16.—A special to the Herald from Washington says: Senator Clay of Georgia, a Democrat, is quoted in the midsummer political gossip here as having expressed the belief that there would be an anti-expansion Republican ticket in the field for the presidency next year.

According to this gossip, the new ticket is to be called "The Continental Republican," and though it is not believed that it will be possible to get former Speaker Reed's consent to head the ticket, he is counted on as one of the most effective supporters.

Former Secretary of the Treasury George S. Boutwell, of Massachusetts, who is in the councils of the anti-expansionists, is talked of as the anti-expansionist candidate for the presidency, and it is said that the anti-expansionists, with him at the head of the ticket, would expect to prevent the regular Republican ticket from carrying any of the New England states.

Testifies to Benefits Received From Dr. Miles' Remedies.

There is no more responsible position on earth than that of a railroad engineer. On his steady nerves, clear brain, bright eye and perfect self command, depend the safety of the train and the lives of its passengers. Dr. Miles' Nervine and other remedies are especially adapted for keeping the nerves steady, the brain clear and the mental faculties unimpaired.

Engineer E. W. McCoy, formerly of 1223 Broadway, Council Bluffs, but now residing at 3411 Humboldt St., Denver, writes that he suffered for years from constipation, causing sick, nervous and bilious headaches and was finally restored to health by Dr. Miles' Nervine and Liver Pills. ### HOT TIME ON THE BOWERY.

**Five Men Arrested For Taking Part in a Fight.**

There was a hot time on the Bowery this morning at an early hour. The Pacific saloon was the scene of the disturbance and there were a large number involved in the fracas. Bottles, chairs and everything imaginable were thrown and everybody around the place took a made and one man, James O'Connell, had to be taken to a doctor to have his head sewed up. The morning when the crowd was arranged in court O'Connell was charged with disorderly conduct. He pleaded guilty and asked the court to send him up for a few days in order to give his head time to heal. "Five days," responded the court. "Thank you," said O'Connell, gratefully.

The other four were Pat Mack, James Murray, James Cavanaugh and Thomas Conroy. They all pleaded guilty to the charge of disorderly conduct and were given ten days each.

### Large Machinery Contract.

The Superior Shipbuilding company has taken the contract to build a large number of machines for the Northwestern Grass Twine company's new plant to be of the contract which the Burge works plant is not given out by the officials. It will amount to upwards of \$40,000 or \$50,000, however. The grass twine plant will eventually require an enormous number of machines which are made of iron. They are quite a good sized machine, containing several tons of material and requiring considerable time in their construction. Their cost to the Grass Twine company is upwards of \$100 each. The Superior Shipbuilding company has not yet taken the contract for all the machines which will be needed by the plant, as they place. There is not very much time in which to get them completed, considering how crowded all of the steel mills and manufacturers are at the present time.

### Will Be Improved.

Hanson E. Smith has been appointed the local representative of the New York Life Insurance Co. for the Chamber of Commerce building, which will pass into their control Aug. 20. It is understood that some minor improvements will be made in the building at once, and that plans for the remodeling of the building later have been considered with local architects. Under the new ar-

rangements H. E. Smith & Co. will act as agents for the building in the collection of rents.

### Howard James Appointed.

The Great Northern Railway has issued a circular over the signature of President J. J. Hill, appointing Howard James as purchasing agent of the road. The circular is dated Aug. 14, and Mr. James assumed his office yesterday. He succeeds S. P. Parker, who has other purchasing agent for the Northern Steamship company for some time.

## A DAY OF PICNICS

Ancient Order of United Workmen Having Their Outing at Oa-at-ka.

### OFFICERS ARE HERE

Herald Newsboys Go to Spirit Lake—Hibernian Picnic Tomorrow.

"All the world is a picnic and all the people picnickers," about sizes up the situation in Duluth today. There are picnics galore from Lester Park to Fond du Lac and from the hill top to Oa-at-ka. There are more vacant chairs and typewriter desks in Duluth offices and stores today than at any time this summer, and it is all on account of the picnic epidemic. Street cars this morning going down Lake avenue to the Minnesota Point ferry carried all sorts and conditions of picnickers with festive lunch baskets. Probably the largest picnic is that of the A. O. U. W. of the head of the lakes, that is held out at Oa-at-ka beach today. It is estimated that nearly 1000 people are enjoying themselves beneath the pine trees of Minnesota Point at this one picnic alone. In this celebration was started this morning by a big street parade headed by a platoon of Traveler's extra "funies" and the band. Workmen in line and the parade attracted considerable attention. In this parade there were representatives from the edges of West Superior, Superior and West Duluth.

A number of prominent members of the order are in town today attending the outing, including Post Grand Master Workman Charles G. Hinds, who was a candidate for congress in the Third district last fall against Congressman Heatwole. Other visitors are: Grand Master William Diment and Grand Trustee Joseph Newcomb of Oa-at-ka; Grand Recorder Olaf Olson and Chief of Honor, Mrs. Manior, of William.

The annual picnic of The Herald newsboys is being held at Spirit Lake today. The special train that left over the St. Paul & Duluth road shortly after 9 o'clock this morning was crowded, and the exuberant youngsters made themselves extremely lively on the streets before taking the train. This annual outing this year was better attended than ever before, and there was every indication this morning that the newsboys would have a great time. They were liberally supplied with everything in the way of lunches that makes a picnic in the eyes of a boy, worth living for, and from the talk they have been before taking the train here have been some fierce ball games and some sensational fishing up near Fond du Lac today. The newsboys were accompanied by a number of women, who volunteered to help make the picnic a success and to look after the wants of the inner newcomers to the dinner table. The picnickers returned to the city at 2 o'clock in order to look after the delivery of the papers as usual.

The annual picnic of the Ancient Order of Hibernians will be held at Lester park tomorrow, and nature is reported to have added a deeper shade of green to the grass out that way in honor of the occasion. The late auxiliary of the order, Division Daughters of Erin, decided last night that it would not be good for the picnic to be alone and so have joined with them in this picnic, instead of having one of their own as was at first arranged.

The outing of the Hibernians and their friends are always enjoyable affairs and the picnic tomorrow promises to be equal if not surpass all previous efforts in the order. The pavilions have been engaged for dancing and the committee in charge has spared no effort to insure all who attend a good time. A large delegation of Hibernians are expected from West Duluth, West Superior and other nearby towns.

## BOY DROWNED.

**Albert Dahl, Six-Years Old, Falls Into Lake Avenue Slip.**

Albert Dahl, 6-year-old son of Anton Dahl of 231 St. Croix avenue, was drowned in the Lake avenue slip about 2 o'clock this afternoon. In company with three other boys about his own age he was playing in a canoe boat which was attached to a scow near the dock. They were pushing the boat away from the scow until it reached the end of the chain by which it was fastened. It was being pushed away once it caught up with a sharp jerk and the Dahl boy was thrown into the water. Before help came he had gone down for the last time. A life pole was produced and the body was finally brought to the surface but not until it had been in the water for twenty minutes. At 3 o'clock attempts were still being made to resuscitate but there was little hope because of the length of time the boy had been in the water.

### No Strike at Brewery.

To the Editor of The Herald:—Once more the Tribune goes on record as being the morning star by instituting a strike by our employees, at a time when contentment, satisfaction and good feeling reign supreme. It also says the manager of the Duluth Brewing and Malting company said he would not sign the scale. This is also false, as such assertion was never made. The article also says we compelled our men to join the union. This is also false. When the matter of organizing a brewers' union was submitted to us, we told our men we had no objections, they being at liberty to join anything they see fit, as well as vote for anybody they choose.

It, however, seems to be the aim of the morning star to injure home industries as much as possible, by rushing into print with some scurrilous fabrication of their own or at least the instigation of some tramp, so-called brewer, but who don't know the first principle of brewing beer, for if the aforesaid liar had any intentions to be impartial in this matter it certainly should interview us and our men before publishing the article. Yours very truly, DULUTH BREWING AND MALTING COMPANY.

HENRY W. HOCH, Secretary.  
Duluth, Aug. 15.

## FREIMUTH'S A Grand Array of New Autumn Dress Fabrics.

About 200 spic and span new pieces received by us yesterday. The assortment comprises practically the most desirable weaves for the Fall and Winter season. The ingenuity of the Frenchman, the solid merit of the German, and the very clever conception of our own American artists are arrayed side by side in an endless display of beautiful colors and combinations. Quality is absolutely maintained in every yard. Anything that does not possess sterling merit can never cross our threshold, so that if you buy Dress Goods here you know from the outset that you are buying right and that the prices rest upon the proper price level of the Merchandise itself, and our promise to sell you better goods for same money or the same goods for less money, is not demonstrated to better advantage in any part of the store than in the Dress Goods Department.

A thoughtful study of these Goods and Prices will pay well.

**Timber Wound Down.**  
A letter was received at the United States land office this morning from a man at Hibbing saying that a cyclone recently tore down a great amount of timber about five or six miles north of that place and asking what the law in reference to cutting timber that has been blown down is. He stated that there are a number of homesteaders on the land over which the cyclone passed and they are anxious to cut the timber because it will be lost if this is not done.

**A Young Tate In Court.**  
John Tate, a young member of the Tate family which is involved in the Garfield avenue feud, and Helger Dehn were arraigned yesterday on the charge of as-

saulting L. N. Johnson. They were arraigned this morning and pleaded not guilty. Their hearing was set for Sept. 5. Tate was also in court on another charge, that of trespassing on the property of the Northern Pacific railroad. He pleaded guilty and paid a fine of \$5 and costs. George Lynch was arraigned on the same charge and was given a similar fine. Both paid their fines.

The man's face is contorted in a look of intense shock or fear, with his mouth wide open in a scream. He is wearing a dark cap with a small emblem on the front and a shirt with vertical stripes. His hands are tightly clasped together, holding a small, indistinct object. The background is filled with dynamic, swirling lines that suggest a sense of movement or a chaotic environment. The overall style is reminiscent of classic comic book art, with heavy shading and expressive line work.

### The Road Offered a Compromise But the Men Rejected It

will receive 20 cents an hour, while the iron makers will receive 20 cents an hour.

The official yesterday by an Eastern Minnesota company later in the day offered a compromise of \$1.15 a day, but no definite action was made to the extra hour men. The company's offer was taken in the afternoon, but the men refused to arbitrate for compromise, and the men refused to arbitrate which up to that time had been mostly taken by the railway officials, and the men offered the wages they asked for. The men refused to arbitrate, and the men refused to arbitrate, and the men refused to arbitrate.

There is considerable unrest among the coal handlers, and while there are no strikes, there is no telling when they may take it into their heads to demand an extra hour, and there is talk of their asking 60 cents. The coal companies will not give them more than 40 cents an hour when they are compelled to pay such high lake freights as are demanded.

Doston, Aug. 17.—The racing which was an important part of the L. A. W. meet began yesterday at the Charles River with a small attendance. Two events were held, the quarter-mile and the half-mile national championship for professionals and the quarter-mile national championship for amateurs. The former was won by Tom Butler by a few inches over Maj. Taylor in a sensational finish. The latter was won by Ben Gibson, apparently by E. W. Peabody, of Chicago, with Albert Tallandier, second and Ed. Peabody, third. The race between the riders had finished in a bunch, and it was immediately claimed that Ben Gibson had been helped by Peabody and the others on the home stretch. After an appeal to the referee, it was announced that the race was a dead heat between Peabody and Tallandier, and that Gibson was to be ridden again today. ## NEWS OF THE LAKES

### Ore Rate From Duluth to Ohio

Ports Makes Another Advance.

### COAL COMING LIVELY

### Steamer Ranney Went Ashore at Cleveland—Cargo to Be Lightered.

The ore rate from Duluth to Ohio ports went to \$1.25 today, and it is reported that the Buffalo rate is 10 cents higher. There was a good demand for ore tonnage, but practically no demand for wheat tonnage. The wheat rate has not changed much owing to lack of demand for vessels in this line, but it is pretty well understood that grain shippers will have to pay 25 cents on wheat from here to Lake Erie. Chicago grain rates have stiffened up some, and there is a fair business reported in the grain trade there, but here stagnation rules. At the present rate on ore there are more cargoes than boats. Coal for Duluth and Superior has been coming in rather lively for the past three days, and the shippers so far are holding their own against the vesselmen in their fight to reduce the rate on ore from Ohio ports. It is reported that the owners of package freight carriers have been asked to make prices for their vessels for the remainder of the season at single trips. One vessel owner, with a package carrier of 2000 tons is reported to have asked \$40,000 for the remainder of the season, and still another with a vessel of the same size has asked \$50,000 a day.

**THE HANNEY ASHORE.**  
 Cleveland, Aug. 17.—The Corbin steamer Hanney, when with the iron ore, ran ashore two miles east of the pier in the smoke yesterday morning. The stranded boat must lighter her cargo.

**NEW WAGE SCHEDULE.**  
 The new schedule in the rise of wages for dock hands, stevedores, coopers, firemen and wheelmen has gone into effect. The new schedule is not for the balance of the season, and it is expected to advance another card will be adopted before the close of the season. The schedule is as follows:

life. In the light of recent events, it is not hard to believe that the police may not have known that the process of passing a bill of exchange is so simple. It passed and re-passed police headquarters.

It is hard to tell, and people have been guessing what conception of their duty motivates the officials of the department. They did not get it right in the charter, that is certain. It seems as if it must have been from the comic opera. The spectacle of Jailer Haslins asleep on watch slumbering under a lamp, with his feet sticking out of his shoes is typical of the state of affairs throughout the department. From the chief of police down to the lowest of the chief of police. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted.

There are many other works of the size of DuPont in this country. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted. It is safe to say that the prohibition would not have been permitted.

The department works a great deal of hardship in doing less than it would have done in the United States with a fair degree of proficiency.

that the other burglar has the remainder of the money.

**MARRIED IN CHICAGO.**

**Wedding of Alex. W. Hartman and Mrs. Katherine C. Gamble.**

The marriage of Alexander W. Hartman, of this city, and Mrs. Katherine C. Gamble, of Saginaw, Mich., took place last evening at 5 o'clock at St. Theresa's church in Chicago. The ceremony was performed by Rev. Father Kosmer, of this city. Otto C. Hartman, brother of the groom, acted as best man, and Mrs. Chapman, of Chicago, sister-in-law of the bride, was present.

The bride and Mrs. Hartman left for their home at 11:30 o'clock. They will return to DuPont about Sept. 1, and will be at home at 1124 East Superior street.

**Natural Gas In Duluth.**

The invention of the Champion Oil Burner has made it possible to use kerosene oil in any locality where there are the advantages of natural gas for heating purposes of all kinds in every home.

The burners are first heated and then as fast as the oil is allowed to flow it is generated into gas, which mixes with 90 per cent of air and 10 per cent of carbon oil gas, producing a natural gas flame of intense heat, free from smoke, odor, as well as free from dust and dangerous gases arising from the use of wood and hard and soft coal. The combustion being perfect, there is no waste of fuel, when added to this, that there is no danger, and one can see the intense flame circling around the large cook stove and ranges with the power to bake and boil so many pots, it is impossible not to feel that the cooking and heating question has been dealt with in a mastery and successful manner.

**You neglect your Teeth mainly for TWO REASONS:**

You are "afraid" of being hurt. And you are "afraid" of the expense.

Do not stay away from this office because of these reasons. We can do and surprise you in both. Come before "Mr. Can and Mr. Swift Case" can tell you to go. We use the latest improved methods and appliances which make the extraction of teeth all operations in filling and crown and bridge-work absolutely painless.

The dentist who tortures you in this age by the old-fashioned antiquated methods is two years behind the times and unworthy of patronage. No matter how bad your teeth may be or how great a number, we will take them about as easily as you can get them.

We make no charge for extracting teeth when our best method is used.
